Coding in PHP from the Very Beginning

Polcode's PHP Expertise

At Polcode, PHP forms the foundation of our services. Since 2006, we have been crafting advanced PHP solutions, pioneering Symfony development since 2007, and leading Laravel programming since 2012.

Our commitment to PHP is unwavering—we actively support the PHP Foundation and continuously share our expertise through insightful articles, interviews, and eBooks.

Team Augmentation Services

Polcode offers dedicated, remote PHP developers to strengthen your team, **eliminating the costs and delays of in-house hiring**.

Key Benefits:

➜ Expertise in Symfony and Laravel for scalable, robust solutions.

➜ Seamless integration into your workflows and tools.

➜ Continuous learning culture to ensure cutting-edge solutions.

1
ANALYSIS
We understand your business goals and technical needs.

2
ONBOARDING
Meet your new team member(s) and start collaborating.

3
DELIVERY MANAGEMENT
A dedicated manager ensures smooth communication and progress.

PHP Development Services

Polcode transforms your ideas into powerful PHP applications, offering services that cover every stage of the development lifecycle. From concept to post-deployment maintenance, we ensure your projects perform at their best.

Development & Testing

Deployment

UX / UI

Discovery Workshop

Kickoff

Support & Maintenance

Full-Cycle Product Development

From initial design to deployment, our team—**Project Managers, UX/ UI Designers, Developers, DevOps Engineers, and Delivery Managers**— guides your project using Agile methodologies. This ensures a collaborative workflow where all stakeholders achieve their goals.

PHP Audits (Code and UX/UI)

We evaluate code quality, architecture, and user experience, providing actionable recommendations to improve performance, security, and usability.

Feature Expansion

Add new functionalities to existing systems while maintaining seamless workflows.

Custom PHP Development

Create scalable B2C and B2B platforms or CMSs tailored to your needs using Laravel and Symfony for robust, precise results.

Upgrades and Migrations

Transition to the latest PHP frameworks with minimal disruption, improving security and performance.
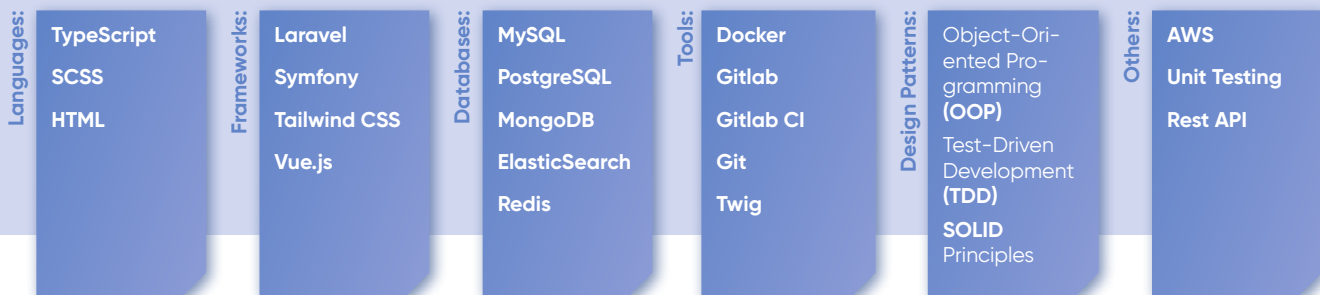

Technical Support & Maintenance

Ensure smooth operations with proactive monitoring, issue resolution, and regular updates.

Technology Stack & Adjacent Expertise

We combine PHP expertise with a **broad spectrum of technologies** for comprehensive solutions that meet diverse business needs.

Languages:
- TypeScript
- SCSS
- HTML

Frameworks:
- Laravel
- Symfony
- Tailwind CSS
- Vue.js

Databases:
- MySQL
- PostgreSQL
- MongoDB
- ElasticSearch
- Redis

Tools:
- Docker
- Gitlab
- Gitlab CI
- Git
- Twig

Design Patterns:
- Object-Oriented Programming **(OOP)**
- Test-Driven Development **(TDD)**
- **SOLID** Principles

Others:
- AWS
- Unit Testing
- Rest API

Our Mission & Vision

We Care to Deliver Useful Software

Polcode creates software solutions that streamline processes, reduce costs, and drive measurable business growth.

We are on a Journey with Responsible Companies
to Achieve Their Goals and Keep Their Uniqueness
by Using Our Software.

Empowering socially conscious companies
through dynamic partnerships,
built on trust and integrity,
to achieve sustainable success.

Why Does Polcode Stand Out?

➔ Nearly two decades of software development expertise.

➔ Thousands of successful projects delivered globally.

➔ A team of skilled professionals committed to innovation and excellence.

Client Success Stories

MED RELIANCE

Polcode Revived SaaS and Cloud Platform for US Healthcare Jobs

After an imperfect experience with a previous developer-contractor, Polcode resuscitated the project through a blend of bug fixes, UX redesign and optimized web development. We helped moved Medreliance to a more efficient, secure cloud-based architecture, while also integrating new features, such as built-in payment providers, single-dashboard management, and a highly scalable code architecture.
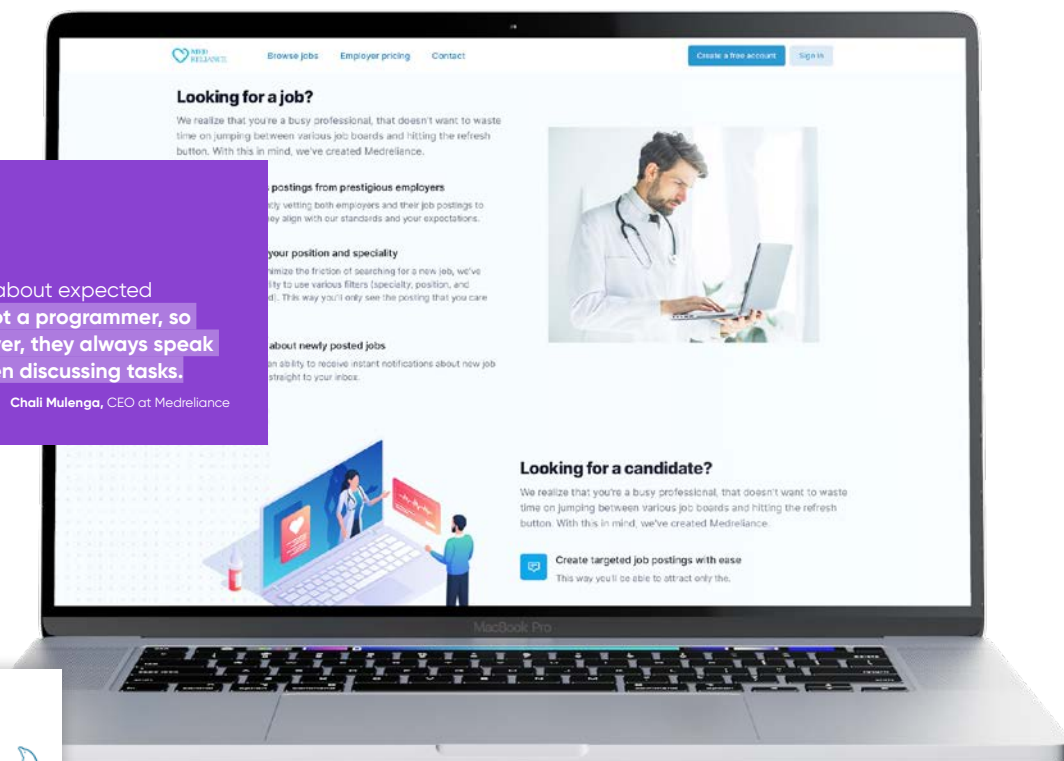

KEY DELIVERABLES:

- ✓ Remote development
- ✓ Web development
- ✓ User Experience (UX/UI) design
- ✓ Integrating new features
- ✓ Bug fixing

> Polcode has been very transparent about expected resources and time allocation. **I'm not a programmer, so I don't speak their language. However, they always speak in a language I can understand when discussing tasks.**
>
> **Chali Mulenga,** CEO at Medreliance

TECHNOLOGIES:

php Laravel 5 Alpine.js MySQL

Building Alongside Digital Marketing CTOs

The SiteVibes Visual Marketing and Social Engagement platform helps eCommerce brands step up their product discovery and customer engagement tools. Their in-house CTO worked alongside Polcode product developers to help rapidly build and launch a visual marketing platform, which boosts conversions by up to 20% and motivates shoppers to purchase based on social proof.
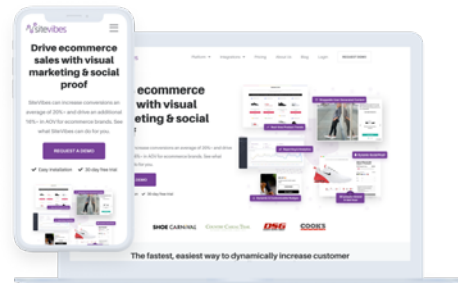

> **Polcode are simply fantastic developers with excellent communication skills and a technology stack perfect for digital marketers.** Project development goes very smoothly, which is a credit to their great account managers and responsive coders.
>
> **Mike Matker,** Co-Founder at SiteVibes

TECHNOLOGIES:

Laravel   Vue.js   elastic

Building a Smarter IVR Call Center with Twilio Studio

When GreenWay needed to upgrade their hotline with a more elaborate, intelligent and autonomous Interactive Voice Response (IVR) system, Polcode implemented Twilio Build IVR solutions to give callers the support quality they deserve.As an official Twilio Technology Partner, Polcode's expertise in building IVR features turned out to be the perfect match.
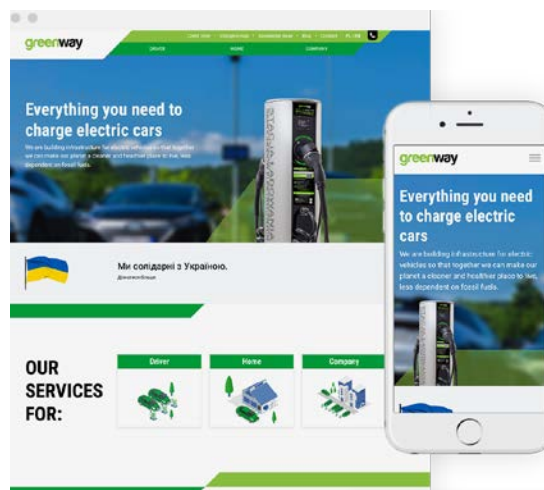

KEY DELIVERABLES:

✓ Twilio integration
✓ Zoho Desk CRM integrations
✓ Laravel & Next.js development

> **Code quality from Polcode was top notch. Polcode developers are very professional and carry out their work to the highest standards.** They even provided basic Twilio Studio training to us which helped us understand the project from their perspective.
>
> **Grzegorz Soŉta,** Head of Customer Service at GreenWay

TECHNOLOGIES:

My Consulting Coach

Delivering online mentoring to over 15,000 users

MyConsultingCoach is an innovative platform for aspiring candidates to get into management consulting with digital mentorship. Instead of practicing with rigid books and tutorials, candidates can build their own original frameworks and learn from hired consultants before their interviews. Polcode developed the web platform which serves over 15,000 users, wrapped in an ecommerce solution for users to pay for premium services.

KEY DELIVERABLES:

- ✓ Web development
- ✓ eCommerce development
- ✓ eLearning development
- ✓ Optimization of the web performance

> We were thrilled to continue working with Polcode because of their responsiveness, detailed estimates, and how **their developers and project managers had a good understanding of business and really clicked with our team.**
>
> **Giovanni Braghieri**, Co-Founder of MyConsultingCoach

TECHNOLOGIES:

php · Laravel · MySQL · JS · stripe · 31 · PayPal · redis
