

People at heart | **technology in mind**

Hey there! Stay awhile and listen...

I'll tell you the story behind Polcode, the people and our brand.

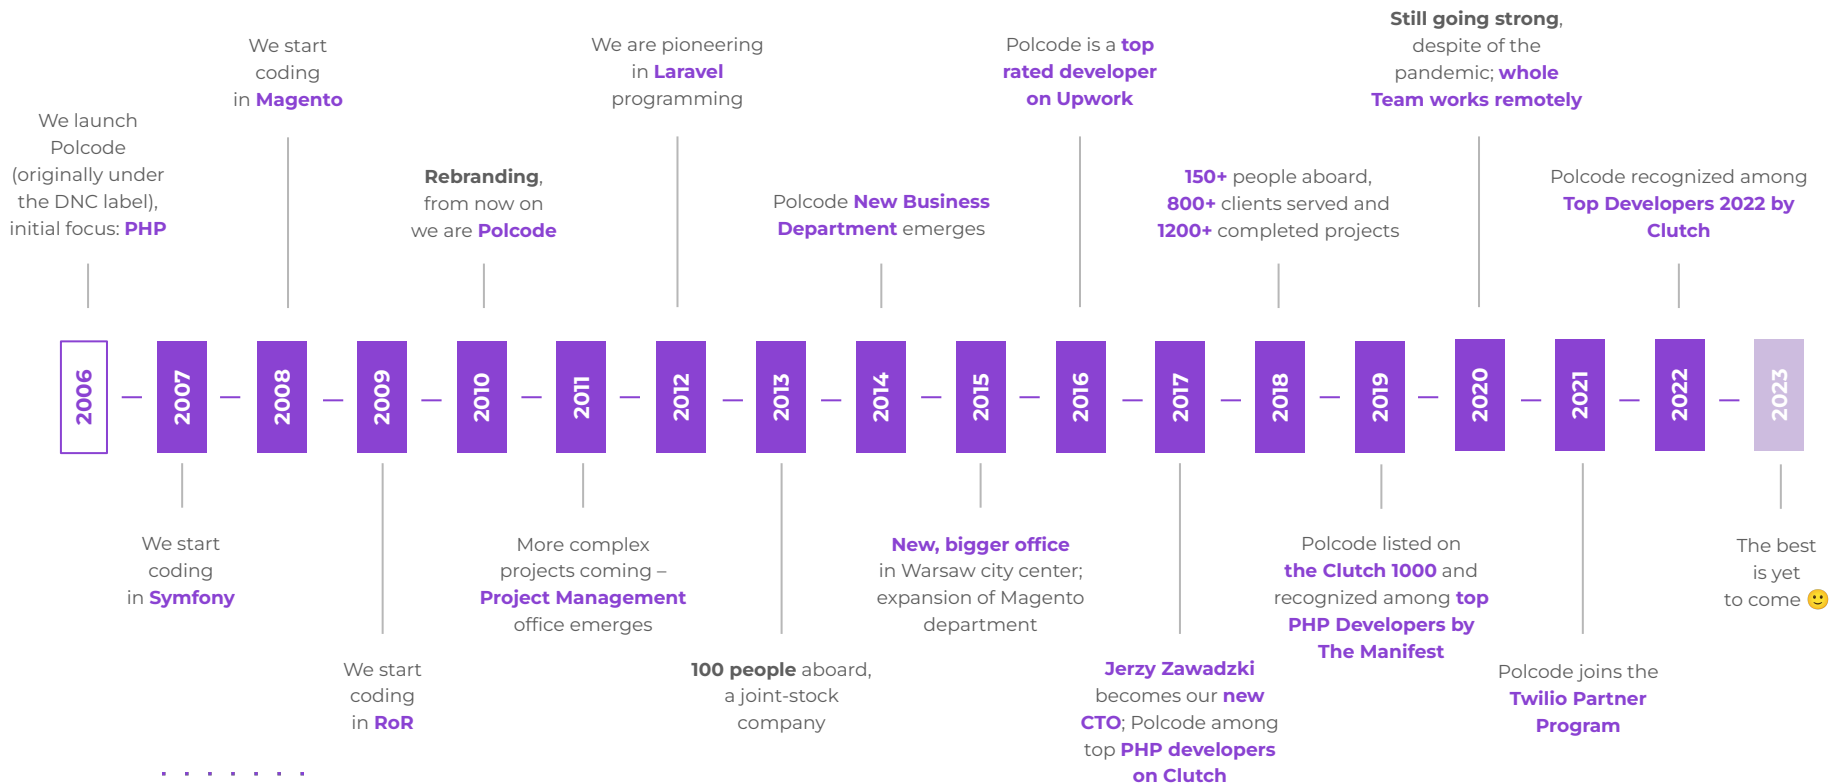

If I could go back in time to when I was a new dev, this is what I wished I knew before joining a software company.

**There's nothing ordinary about Polcode.** Not our brand, and certainly not our people. Our people are at the heart of everything we do. We are specialists who work together to make ourselves (and our projects) into the best versions possible.

We believe that creating outstanding software can be paired with ambitious talent and making friends along the way. If you share this vision, then get ready to hear our story.

**Wojciech Hyzopski**, CEO at Polcode

Since **2006**, Polcode has delivered excellence in digital services and has become one of Poland's leading software houses. Our achievements propel us forward to do bigger and better things.

When I joined Polcode we were **only 10 people**.

Today, there are **over 150!**

What hasn't changed is the atmosphere and the attitude – employees feel ownership of their work, achieve professional successes and make friendships that last over the years.

**Jerzy Zawadzki**, CTO

# We are a **Polish company at heart**

But our international clients are based in  
**USA, Canada, Western Europe and more!**

We  our job

# Why Polcode

## Join the team where:

**You can fully focus on a given project** – no bureaucracy, no ridiculous rules.

**Your opinion matters** – you are the influencer we actually need!

**We communicate clearly and simply** – no need to guess or pick holes in anything.

**You can develop** – not only your career but also relations! Make friendships that last a lifetime, and work with people you really like.

**Your work is appreciated** – we believe in the power of feedback, also the one you give us.

**We respect your private life** – no over hours, no weekend jobs, work-life balance only.

# We put **people's safety first...**

Since March 2020, **the entire company is now remote-first**.  
It was an easy transition, as we already had remote working in place.

...and switched to 100% online, easy-going **Recruitment**

### **Efficient Recruitment**

At Polcode, we aim to minimize the stress of the recruitment and save your precious time.

You won't have to wait for weeks to get an answer.  
Seems unreal? Try us!

### **Partnership Approach**

We care about your comfort during the recruitment process.

We want you to feel at ease.  
Just be yourself, show us the real YOU.

We love working with each other and every newbie can feel it!

# We provide a wide range of **Software Development Services...**

## **Mobile Development**

Delivering speed, flexibility and mobility with our bespoke app development services.

## **Web Development**

Building scalable and secure web apps that perform faster, safer, and at global scale.

## **Product Design**

Taking your ideas from concept and move seamlessly to market launch with our product development services.

## **Remote Team Extension**

Scaling your developer teams with talent you can trust.

## **E-commerce Development**

Bringing your business online and selling more with modern e-commerce

## **Software Audit**

Evaluating your software, codebase or technology stack with Polcode's expert teams.

# ...using **Best-in-Class Technologies...**

Polcode offers full-stack development with expertise in every corner of **the web's leading technologies.**

## TECHNOLOGIES

A close-up photograph of several hands stacked together in a huddle, symbolizing teamwork and strength. The hands are of various skin tones and are wearing different accessories: a green long-sleeved shirt, a red long-sleeved shirt, a grey sleeve with four buttons, a ring, and several beaded and woven bracelets. The background is blurred, showing a white surface with some stickers.

Our **brand values**  
are our strength

## People **first**

**Mutual respect lies at our core.** We are surrounded by people of different ages, backgrounds, and competencies, but we all join in our open-mindedness, willingness to develop, and respect for team members and clients.

We like to go beyond *business as usual*. Joint implementation of projects is fun for us; relationships tightened after hours and at company events remain with us for years.

**At Polcode, the focus is on appreciating and supporting talents; we give ourselves space to learn, develop and express individuality, so that **anyone can feel comfortable here.****

For me, Polcode is not only a team of individuals and the best specialists in their fields, **it is mainly a team of perfectly matched, professional and amazing people!**

**Olga Gaworek**, People Manager

I work with wonderful people who don't need additional motivation to work. I believe **keeping a positive atmosphere in a team is the key to success – and here at Polcode, we all work for it.**

**Edyta Grabowska**, Project Manager

## Learn **and** teach

**Knowledge is most powerful when shared with teammates.** We create challenging projects with motivated people who inspire each other.

We know that our company's growth depends on our team's personal development. We build an atmosphere of trust and let our people take ownership of their work so that they have a tangible impact on our company's success.

**Sharing knowledge and passions is our bread and butter and inspires us to **engage in new initiatives** that let Polcode flourish.**

**At Polcode, I found what I appreciate at work the most** – exciting challenges, new technologies and tools, but also many opportunities to improve my current skills.

**Urszula Dancewicz**, Python Developer

**I have never felt so good in any other workplace – I haven't had such a chance to develop and such an open employer. I learned a lot while working at Polcode.** The company is still growing fast, and I am confident that my future here will be a never-ending adventure.

**Anna Midura**, Business Development Executive

Polcode is, most of all, a place that gives many **opportunities to develop** and implement various projects in the web's leading technologies.

**Andrzej Tracz**, Senior Full Stack Developer

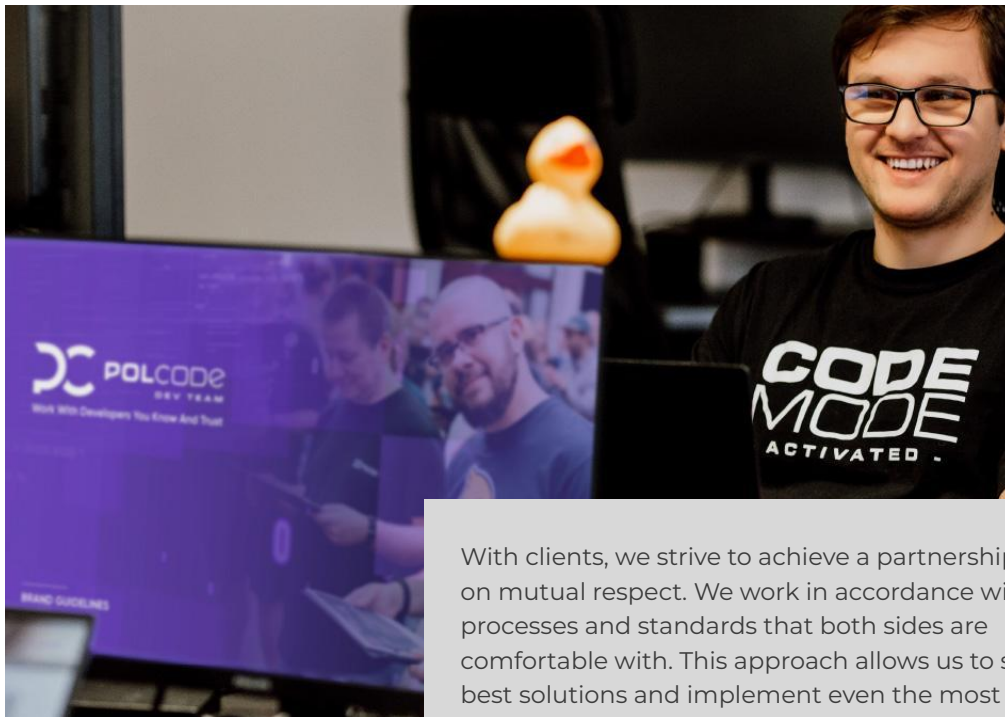

## Adjusting to changes

**A flexible approach allows us to build an organizational culture open to changes.**

We encourage our team to bring in new ideas and we follow the principle of implementing small improvements that translate into the efficiency of our work in the big picture.

**We give ourselves space to grow, follow our passions and work as a team, creating an environment where everyone can thrive.**

With clients, we strive to achieve a partnership based on mutual respect. We work in accordance with the processes and standards that both sides are comfortable with. This approach allows us to seek the best solutions and implement even the most complex types of projects. **Flexibility in defining the principles of cooperation and the way of leading projects lets us deliver solutions with the highest quality standards.**

I don't feel like I'm just a cog ticking off Jira tasks – through regular personal contact with the clients, **I have a direct influence on the shape of the products being developed**, and in the process, I get to meet people from other parts of the world, not just strictly professionally.

**Jakub Wołowski**, Senior Full Stack Developer

**A friendly atmosphere, flexible work, and mutual understanding could be the motto of this company.** One may think these are simple things, but in a world full of rush, these values are among the most precious ones.

**Krzysztof Litarowicz**, Senior React Developer

Thanks to working at Polcode for international clients, I understood that **cooperation in a multicultural environment not only gives us chances to develop but also makes us more open to what is new.**

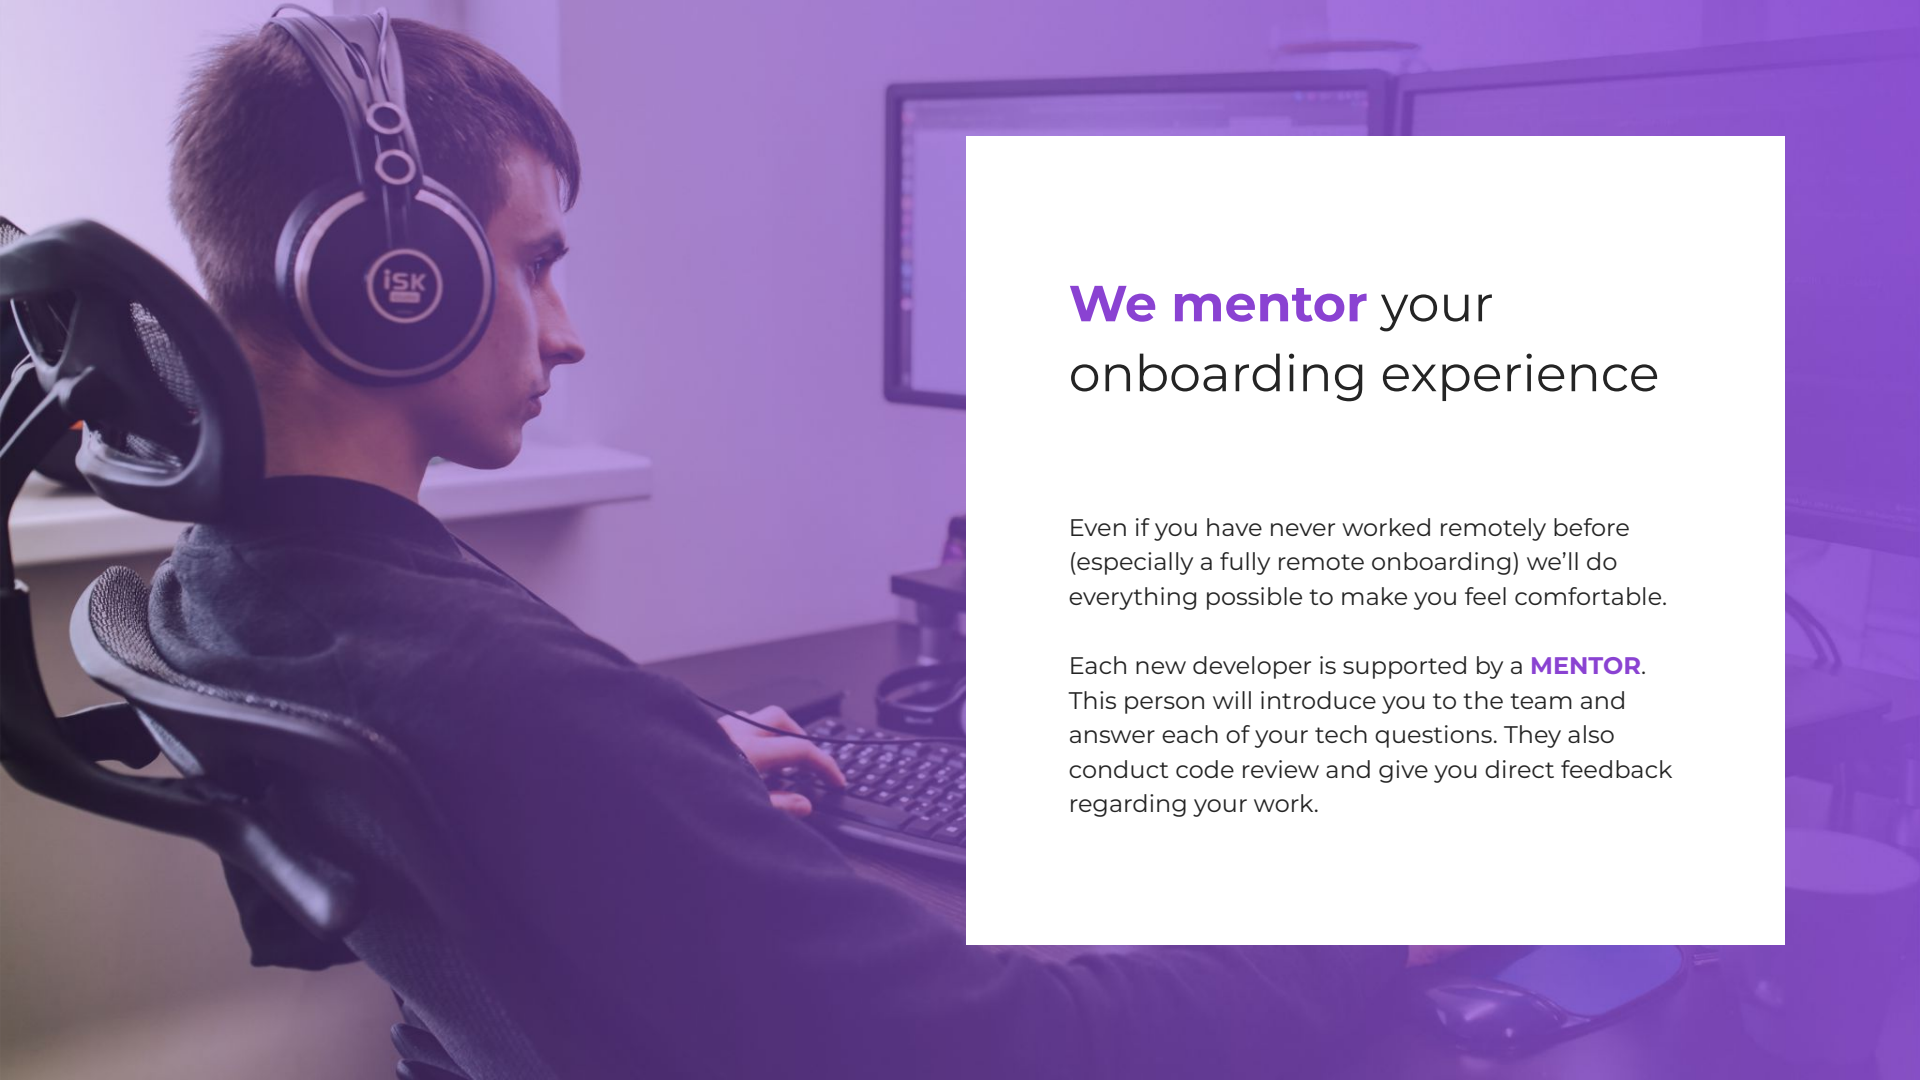

**Anna Bober**, Solutions Architect

A close-up, low-angle shot of a person's hands typing on a white keyboard. The person is wearing a dark watch on their left wrist. The background is dark and out of focus, showing a computer monitor and some office equipment. The lighting is warm and focused on the hands and keyboard.

Perks of being a **#Polcoder**

## We mentor your onboarding experience

Even if you have never worked remotely before (especially a fully remote onboarding) we'll do everything possible to make you feel comfortable.

Each new developer is supported by a **MENTOR**. This person will introduce you to the team and answer each of your tech questions. They also conduct code review and give you direct feedback regarding your work.

## We motivate your achievements

We created our well-loved **quarterly rewards** and **transparent promotion system** based on competences and quality of work, and always make joint decisions about both.

SOFTWARE DEVELOPMENT  
IS NOT ONLY ABOUT CODING

## We encourage professional growth

**Here are just some of the things Polcoders  
do to broaden their horizons**

- ✓ Become a speaker at conferences and workshops
- ✓ Publish articles on our blog
- ✓ Help talented developers by acting as an **HR Technical Advisor**
- ✓ Advise our business partners in making the right strategic decisions.
- ✓ Become a **mentor** introducing new members of Polcode Team
- ✓ Act as a **team leader** on projects

## We cultivate your **continued education**

Not comfortable enough with **Business English**?  
Want to **learn something new**?

You'll always be learning something new  
from our **English lessons (fully funded by Polcode)**

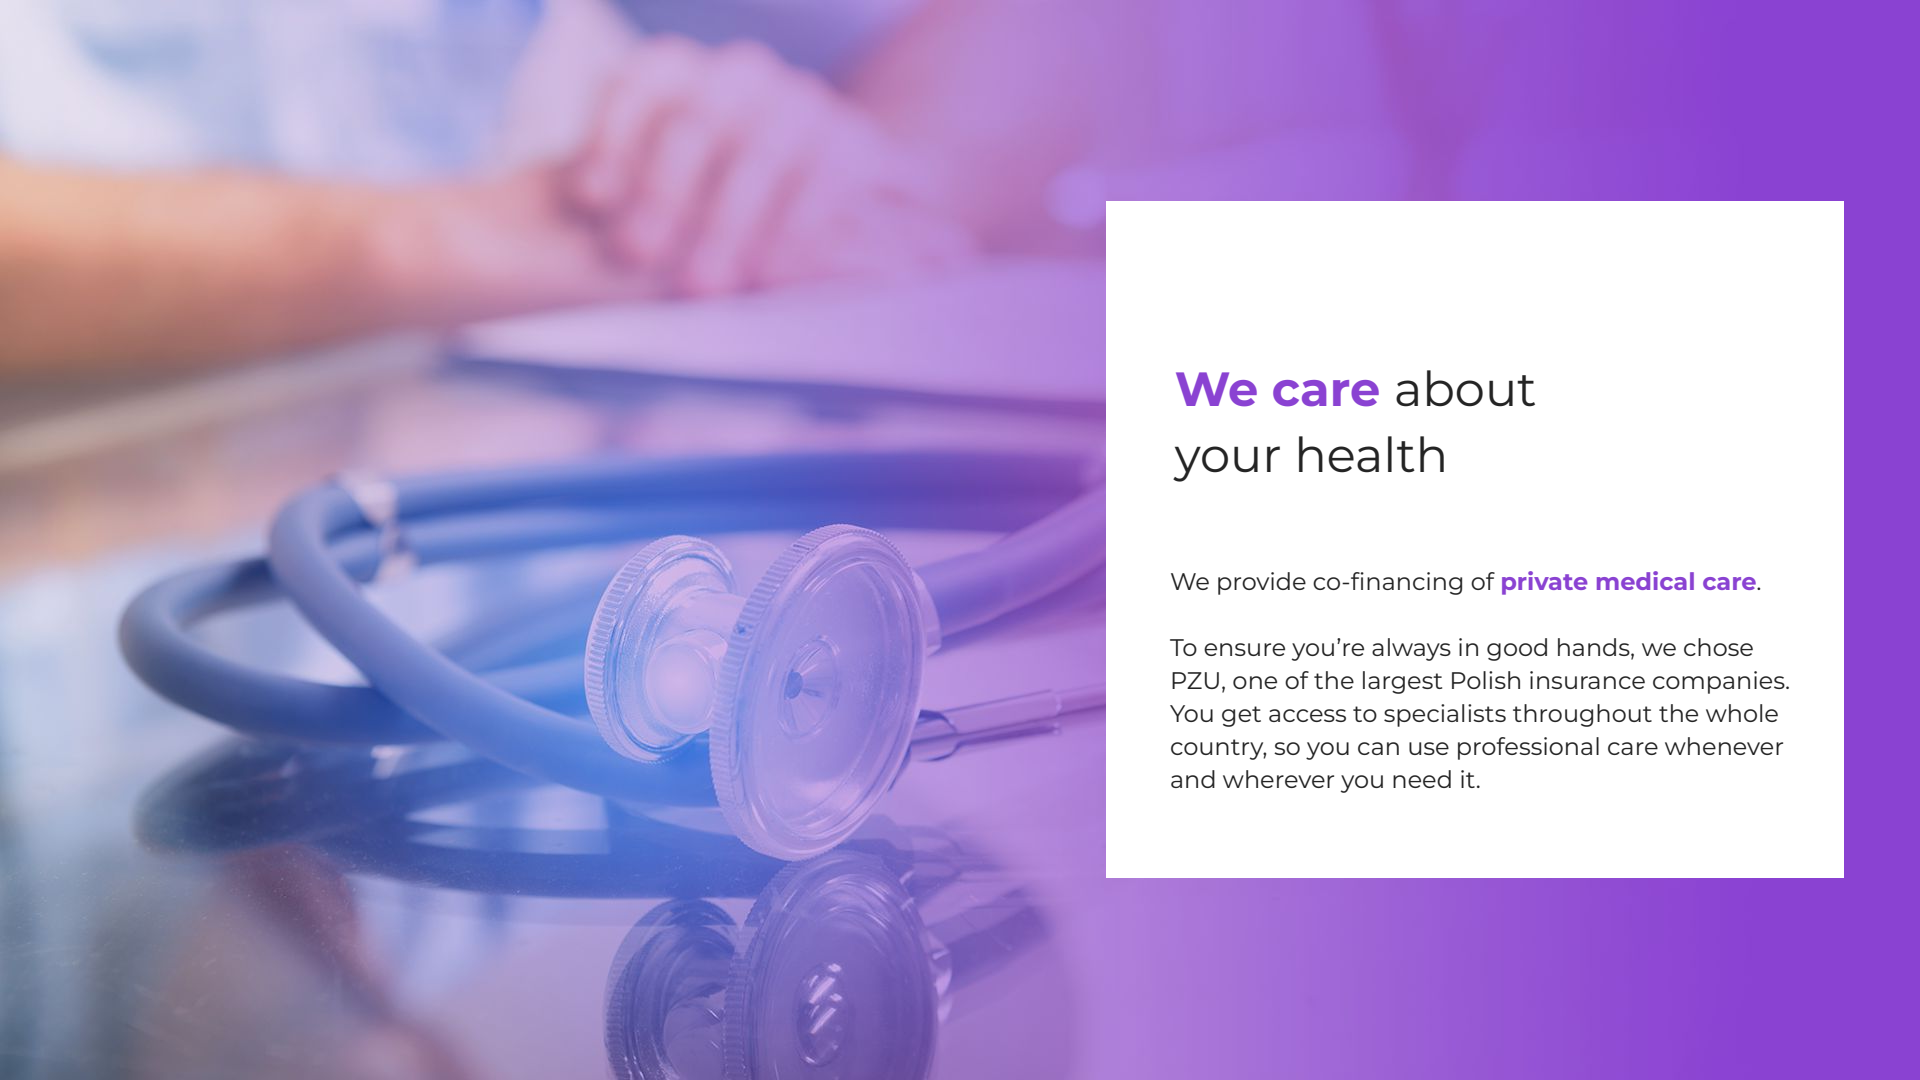

IN ♥ WITH  
**SPORTCODE**

## We **fundraise** your charitable causes

Our original programme **SportCode** combines healthy competition with fundraising!

It's up to you. The more you do for yourself (and your body), the more funds we will donate for the ones who need help the most!

## **We care** about your health

We provide co-financing of **private medical care**.

To ensure you're always in good hands, we chose PZU, one of the largest Polish insurance companies. You get access to specialists throughout the whole country, so you can use professional care whenever and wherever you need it.

And finally, **we celebrate special occasions!**

Even while remote!
